

**PRODUCT DATA SHEET****10 nm Iron Oxide Magnetic Nanoparticles (Water Soluble)**

Catalog Numbers:      **IO-A10-1 (1 ml, 5 mg/ml)**  
                                 **IO-A10-5 (5 ml, 5 mg/ml)**  
                                 **IO-A10-10 (10 ml, 5 mg/ml)**

**Characteristics**

**Composition:** 10 nm Iron Oxide Magnetic Nanoparticles (magnetite,  $\text{Fe}_3\text{O}_4$ ), Superparamagnetic

**Diameter Range:** 10 nm (+/- 1.5 nm)

**Concentration:** 5 mg/ml

**Magnetization:** >45 emu/g

**Volume:** 1 ml, 5 ml, 10ml

**Formulation:** Supplied in ddH<sub>2</sub>O

**Storage and Stability**

This product should be stored at 25°C. If stored as specified, Cytodiagnostics Magnetic Nanoparticles have a shelf life of approximately 6 months. **DO NOT FREEZE.**

**Precautions and Disclaimer**

These products are for R&D use only, not for drug, household, or other uses. Please consult the Material Safety Data Sheet available online at [www.cytodiagnostics.com](http://www.cytodiagnostics.com) for information regarding hazards and safe handling procedures.
