5. Fire Fighting Measures

Suitable extinguishing media:

Use alcohol-resistant foam, dry chemical or carbon dioxide.

Specific hazards arising from the substance or mixture:

1. Liquid and vapors are highly flammable
2. Severe fire hazard when exposed to heat, flame and/or oxidizers
3. Vapor may travel a considerable distance to source of ignition
4. Heating may cause expansion and decomposition leading to violent rupture of containers

Special protective equipment and precautions for fire-fighters:

Wear self-contained breathing apparatus if necessary. Wear protective gloves.

6. Accidental Release Measures

Personal precautions, protective equipment and emergency procedures:

Use personal protective equipment. Avoid aerosols or dust formation. Avoid breathing vapors, mist or gas. Ensure adequate ventilation.

Methods and materials for containment and cleaning up:

1. Remove all ignition sources
2. Clean up all spills immediately
3. Avoid breathing vapors and contact with skin and eyes
4. Control personal contact by using protective equipment
5. Contain and absorb small quantities with vermiculite or other absorbent material
6. Wipe up
7. Collect residues in a container marked flammable

Do not allow product to enter drains or the environment. For disposal see section 13.

7. Handling and Storage

Precautions for safe handling:

1. Keep container tightly closed in a dry and well-ventilated place. Containers, which are opened, must be carefully resealed and kept upright to prevent leakage.
2. Avoid formation of aerosols.
3. Provide adequate exhaust ventilation at places aerosols may form.
4. Use spark free tools and explosion proof equipment.
5. Wash thoroughly after handling.

Conditions for safe storage:
